/ AWARDS

- Solved **100+** DSA problems on LeetCode & GeeksforGeeks.
- Top placements in coding events at **Antarya National IT Fest**.
- AI Hackathon finalist** — reached final round with GradeFlow.

/ EXPERIENCE

ChannelBlend Technologies

Full-Stack Engineer Intern

Remote, India

Apr 2025 – Present

- Built the **intent-parser core** and AI sales-agent persona driving WhatsApp conversations across retail verticals; designed an **LLM evaluation & simulation harness** (judge rubrics, replay runner, 100+ scripted journey tests).
- Shipped multi-tenant **Elixir / Phoenix** backend features: configurable product search, a Loki log-ingestion pipeline with chat-viewer API, a Lead Reports analytics API, and WhatsApp outbound with service-window validation.
- Built **Node** ingestion over the Shopify product API mapping product types to category-intent candidates, with tenant find-or-create and de-duplication on re-sync.
- Built **React / TypeScript** operator dashboards — campaign config, lead reports, a paginated WhatsApp chat viewer, dark mode, and an **AI-Agent Debug Panel** for live monitoring.
- Built & optimized a **Shopify (Liquid)** storefront — cart, sticky header/search, account & orders, and modular homepage sections with responsive mobile fixes.

/ PROJECTS

RankForge

Electron · React 19 · FastAPI · CLIP · Postgres / pgvector

2025 – Present

github.com/AbhishekNaik1112/RankForge

- Local-first desktop engine for **semantic + keyword search** over a personal knowledge graph, ingesting PDF, DOCX, PPTX and images.
- Designed a **hybrid ranker** (semantic, keyword, graph authority, freshness) on 512-d CLIP embeddings with pgvector HNSW indexing.

Medisure — Claims Management

React · NestJS · MongoDB · JWT

Mar 2025

github.com/AbhishekNaik1112/Medisure

- Full-stack insurance-claims platform with **role-based access control** (patient / insurer), document uploads and status tracking.
- Exposed a secure **REST API** with JWT auth; deployed client (Vercel) and server (Render).

GradeFlow — AI Study Tracker

Next.js · Node / Express · MongoDB · Xenova Transformers

Jan 2025

github.com/AbhishekNaik1112/GradeFlow

- AI-powered study tracker with smart deadline & assignment notifications, lifting user productivity by **40%**.
- Prototyped at an **AI Hackathon** and advanced to the finals.
- FraudLens** — real-time fraud-detection dashboard (Next.js, Zustand, MongoDB) with a Gemini-AI assistant for analyst queries.
- Library Management** — full-stack return-tracking dashboard (Express, Prisma, MySQL, Next.js). **VIGIL** — Discord anti-phishing moderation bot.
